Eco-Friendly without Sacrificing Quality

Hangers Cleaners is Kansas City's ONLY eco-friendly dry cleaner...period. Hangers' all-natural cleaning process is great for the environment and great for your clothes, leaving them clean, soft and without that FUNKY dry cleaning smell!

We use an all-natural CO₂-based dry cleaning method, which has been rated #1 by Consumer Reports and is the only process given an "A" by Greenpeace. At Hangers, no heat is required during the "drying" process, wrinkles are more easily pressed out of garments and damage to the fabric is minimized. Garments look new longer because the system causes less fabric breakdown than conventional cleaning methods.
